

# What Your Colleagues are Saying

“ Organized dentistry became more meaningful to me about six years post dental school. In hindsight, I should have been involved sooner to benefit from the strong relationships that I have today. The years it took to build the invaluable mentorships, friendships and referral base that support me in my career are attributed to MDDS and CDA. ”

– **Jack Nguyen, DDS, MS**, General Dentist

“ Compared to the past, today's dental practice is more complex, challenging, and potentially isolated, but membership in MDDS provides both practical resources and peer connections to support you. Moreover, MDDS is uniquely positioned to advocate for dental care by its ability to build effective alliances with others in our community. ”

– **J.R. Franco, DDS**, Public Health Dentist

“ MDDS has been one of the best things about being a dentist in Colorado. I love being a part of a living, breathing dental community that creates opportunities for social support AND is active in advocacy, outreach and access for the public. ”

– **Sati Khalsa, DDS**, Pediatric Dentist
